**DETAILED ACTION**

***Election/Restrictions***

1. The amendment filed on March 2, 2005 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-22, drawn to apparatus/method for recording compressed contents, classified in class 386, subclass 109.
  - II. Claims 23-39, drawn to a system/method for providing contents selectable by passengers in an on-board in-flight system, classified in class 725, subclass 76.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I and II have different modes of operation, different functions, or different effect because invention I is directed to recording compressed audio or video signal and invention II is directed to creating content for passenger user selectable entertainment in an on-board in-flight system.
4. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS,

whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
